

NEW YORK TOWER™

The decoflame® New York™ Series is the declared bestseller of all decoflame® wall-hung fires. Available in various finishes, three sizes and two layouts the New York™ Series offers the perfect focal point for any interior. The New York Tower™ is the smallest model in this series of wall-mounted decoflame® fires. With its vertical layout and smaller burner size, it is well suited for less spacious settings as in kitchen, bathrooms or hung onto a column. Installation is literally done within minutes.

The New York Tower™ features the design-protected decoflame® burner on which the flame intensity is steplessly adjustable.

All New York™ models are available as built-in fireplaces as well. The dimensions of the wall cut-out for the built-in New York Series are available upon request. An optional extra would be a low glass screen to the front.
